### RESUME TIPS

When creating your CV for Karriärum, focus on your career goals and what type of job you're seeking. Be clear about whether you're looking for IPC/NFK, final thesis connections, or part-time work.

**Highlight your professional experiences and skills rather than personal details.**

**Provide detailed information about your education, emphasising relevant programs and knowledge.**

**For past internships, clarify your roles, responsibilities and gained experiences.**

**Consider taking a professional photo at the fair if needed.**

**Include references upon request.**

**Include a link to your LinkedIn profile.**

**Seek CV review and guidance from Career Center for relevance and necessity.**

**While a photo isn't mandatory, it's preferred by Swedish companies.**

Also, don't be afraid to be yourself during the fair, and don't just follow the crowd or your friends around.

Approach the companies you find interesting and do so alone to get a lot more out of the interaction if you talk to the companies by yourself.
